

Pilot Registration Form

For ISEI's use only		
Pilot ID	Operator ID	Microshipcard N°

Identification	
Family Name	
Given name	
Address	
Telephones	
E-mail address	

GPS DATA	
Please check the appropriate boxes. Declining a level entails the decline of the subsequent levels.	<p style="text-align: center;">Signatures</p> <p style="text-align: center;">I accept I decline</p>
The position determination data shall be held temporarily (approximately 80 hours of flight) in the onboard equipment memory, after the flight (and transmitted on demand, by local link, to a maintenance computer).	
The position determination data shall be automatically transmitted, after the flight, by radio link to the safetyplane server center and recorded on the said server.	
The position determination technology may be transmitted on demand, to the pilot concerned, by the safetyplane server center.	
The position determination technology data may be transmitted on demand, to the aircraft operating agency, by the safetyplane server center .	
The position determination technology data may be transmitted on demand, to third parties, by the safetyplane server center .	

PERSONAL DATA

Personal information and personal data gathered in the User admission card are required to be entered in the Safetyplane contract. This information shall only be disclosed to those natural or legal persons who have been expressly permitted to access it. In accordance with the provisions of the law concerning Electronic Data Processing, files and freedoms dated 6 January 1978, I have a right of access and rectification with regards to the data collected via the remote management console of my account on the www.safetyplane.com website.

Terms and conditions of use

The terms and conditions of use are set out hereunder and simply using and/or consulting the safetyplane website automatically and unconditionally entails that the user accepts those terms and conditions fully and completely. ISEI retains the right to alter the present terms and conditions at any time without prior notice or any other compensation payments. The user is, therefore, strongly advised to consult those terms and conditions on a regular basis.

ARTICLE 1: PURPOSE

The Safetyplane offer is a service presented to aircraft operating agents (hereunder the Customer). The Customer will offer its members or employees (hereunder the Users) access to the website Safetyplane.com so that they can benefit from specific services.

ARTICLE 2 – ACCESS TO THE SERVICE

Safetyplane internet services do not include any services or software to access the Internet. Internet access is chargeable to the Customer and the users. ISEI binds itself to ensure that the www.safetyplane.com website is available 24 hours a day 7 days a week except under the following conditions, in which case unavailability of the services does not entitle the User or Customer to any compensation.

- . • ISEI retains the right to temporarily suspend access to the services or part of the services, without prior notice, for maintenance.
- . • ISEI may suspend access to the safetyplane internet services, with or without prior notice, for security reasons, operating requirements or for causes beyond its control.
- . • Furthermore, given the nature of the Internet, the user acknowledges and accepts that ISEI can not be held responsible for all the interruptions or alterations affecting the access to its services and that the latter may be caused by the network itself, the type of connection used by the user or other external causes beyond the control of ISEI.

ARTICLE 3 – PERSONAL INFORMATION/DATA

Personal information and personal data gathered in the User admission card are required to enter the Safetyplane contract. This information shall only be disclosed to those natural or legal persons who have been expressly permitted to access it. In accordance with the provisions of the law concerning Electronic Data Processing, files and freedoms dated 6 January 1978, users have a right of access and rectification with regards to the data collected by contacting ISEI at the address hereabove.

ARTICLE 4 – LINKS TO OTHER WEBSITES

The safetyplane.com website may contain hyperlinks giving access to other websites edited and managed by third parties and not ISEI. ISEI shall not be held responsible, directly or indirectly, if the said third party websites do not abide by the current and future statutory conditions set out under French and European law, or for the consequences resulting from failure to do so.

ARTICLE 5 - WARRANTY

Subject to the applicable statutory conditions, the Customer and the users expressly acknowledge and accept that:

- . • the safetyplane.com website is provided as is, accessible based on availability without any express or implicit warranty from ISEI. Consulting this website is entirely at the user's own risk and is the user's own responsibility.
- . • any software downloaded and/or acquired, in whatever way, while using the safetyplane.com website is done so at the user's own risk and ISEI shall not assume any responsibility for any damage or loss of data sustained by the user's computer.
- . • no advice or information, oral or in writing, acquired by the user from ISEI or when using the safetyplane.com website, is liable to give rise to any warranty whatsoever unless expressly set out in the present terms and conditions.

ARTICLE 6 – LIMITED RESPONSIBILITIES

Subject to the applicable statutory conditions, ISEI shall not be held responsible for any damage direct or indirect, in particular but not limited to, loss of earnings, customers, data, intangible assets that may arise due to the use of or the unavailability of the safetyplane.com website and more generally due to events linked to the safetyplane Offer and/or to third party websites. In particular, ISEI's responsibility shall not be engaged:

- . • where the safetyplane.com website is unavailable for reasons beyond its control such as long term failure of the public electricity distribution network, strikes, riots, wars, storms, earthquakes, failure of the public telecommunications network, and/or full or partial interruptions caused by the public and private operators on which ISEI depends.
- . • where the safetyplane internet services are used after a user name and/or the password has been disclosed, lost or stolen and, more broadly, when used by an unauthorized person.
- . • where a third party is able to penetrate the operating system of the users and/or where the data and software are contaminated by a virus
- . • where the safetyplane website is fully or partially pirated and you or third parties may be liable for those piracy damages. The data available through the safetyplane internet services is for information purposes only and has no formal value. ISEI shall not be held responsible for erroneous display of this data. In particular, the services provided do not substitute for keeping of official documents, such as the aircraft logbook or the pilot flight logbook.
